Postsecondary and Career Expectations

At the middle school and early high school level, the Illinois Postsecondary and Career Expectations (PaCE) Framework is designed to provide students with guided exploration of postsecondary planning and options in a manner that is consistent with adolescent development. Meaningful participation in postsecondary preparation programs requires that students perceive college and/or career as possible and probable. Too often, programs are designed to serve only students who already have a college-going or career-oriented identity. The developmental work in the middle school framework is intended to prepare students to more fully engage with the PaCE Framework throughout the critical high school years.
